

Practice Recording Sheet

Name: _____ Per: ____

Weeks of: 6/25 – 6/29 and 7/2-7/6

To keep track of your weekly homework and/or class work assignments, write down your homework assignments for the week in the appropriate box below.

- Classwork is due during the class it's assigned
- Practice is due the day after it's assigned.

After we correct HW in class, we will stamp this sheet and then collect it at the end of two weeks. Be sure to keep this sheet safe!

Absent? It is your responsibility to write down the assignment and its due date **(2 days after your return)**.

When you're done with the assignment, first self-correct your assignment and then have the sheet stamped.

	COMPLETE	INCOMPLETE (late)
Definition	A practice assignment is considered COMPLETE if it satisfies <u>all</u> of the following: <ul style="list-style-type: none"> <input type="checkbox"/> Accuracy: 80% or above <input type="checkbox"/> All work shown <input type="checkbox"/> Proper heading <input type="checkbox"/> On time: Both of the above conditions were met on due date. 	A practice assignment is INCOMPLETE if it has one or more of the following <ul style="list-style-type: none"> <input type="checkbox"/> Accuracy: Below 80% <input type="checkbox"/> Not all work shown <input type="checkbox"/> Not on Time: Either of the above conditions was not met. This includes ABSENT work that turned in more than 2 days following the absence.
Maximum Points	4 Points	3 Points: All previously missed problems must be redone.
When Is It Due?	Assignments are usually due the following day.	INCOMPLETE assignments must be completed and stamped prior to the chapter test.

Date	Assignment	Accuracy	Complete (4 points)	Completed (3 points)	Incomplete (0 points)
Mon., 4/9 <input type="checkbox"/> Absent (Due: _____)		+ _____ = _____ %			
Tues., 4/10 <input type="checkbox"/> Absent (Due: _____)		+ _____ = _____ %			
Wed., 4/11 <input type="checkbox"/> Absent (Due: _____)		+ _____ = _____ %			
Thurs., 4/12 <input type="checkbox"/> Absent (Due: _____)		+ _____ = _____ %			
Fri., 4/13 <input type="checkbox"/> Absent (Due: _____)		+ _____ = _____ %			

Ashley's Teaching Gem: Practice Recording Sheet

Description:

The Practice Recording Sheet is a two-week log for math homework or “practice.” Students are given a new log every other Monday and keep their logs in their binders. They correct their homework in table groups at the beginning of class each day and record the assignment, their score, and percentage on their sheets. Once they have corrected their work, one person at the table stamps each sheet “complete” if the student scores 80% or higher or “Incomplete” if the student scores lower than 80%. If the student’s homework is incomplete, the student is responsible for correcting his/her homework and showing it to the teacher. If completed and correct, the teacher will initial and stamp the “Completed” box. Students must correct their work and complete each assignment by the end of the two-week period or before the chapter test, whichever comes first. On Friday of the second week, students turn in their logs. The teacher checks their totals and records their total homework score for the two-week period in the grading book. The teacher should make each log a different color for each two-week period. This allows students to find the log easily and easily. A binder with a key for each log since the beginning of the school year should be maintained and accessible to students. If a student loses their log, they must write “COPY” on the top and subtract two points from their total homework score at the end of the two-week period.

****This sheet is not to keep track of upcoming assignments and does not replace a planner. I would still suggest holding students accountable for writing the daily goal and homework assignment in their planner and posting it on a class website.****

Benefits:

- ✓ Builds students’ organizational skills
- ✓ Transfers grading responsibility from teacher to student
- ✓ Provides immediate feedback to students
- ✓ Holds students accountable for correcting their work
- ✓ Allows students to practice fractions and percents

Modifications for younger students and/or students with LDs:

- Shorten the period to one week
- Have a place in the classroom where students keep their sheets
- Check students’ sheets every day and collect them at the end of the period
- Have one student at each table be the designated stamper for a period
